## GATE 11

### DESIGN & PRODUCTION

Savir Design A/S

### DESCRIPTION

The GATE 11 series is a chair series consisting of 4 stylish, fully upholstered meeting chairs with many combination options and options. The GATE 11 chairs come standard with a fleefloat tilt and swivel function.

All components on the product can be dismantled and replaced or source-sorted and recycled in order to reduce the consumption of raw materials in production and thus contribute to the sustainable management of the earth's resources. Savir Design accepts all used Savir products for recycling at the end of their life cycle to promote the circular economy and thus reduce the overall environmental impact from production and consumption.

### VARIANTS

### ENVIRONMENT

Savir Design is among the leading furniture manufacturers concerning environmental and climate-oriented furniture production. The materials we use in production are carefully selected, and our range of furniture produced from recycled materials is growing rapidly.

All steels in production are RoHS Directive No. 2011/65/EC and REACH Directive No. 2002/95/EC, and aluminum frames are made of up to 100% recycled aluminum. We use environmental chrome coatings complying with the standards for lacquer coating (DS/EN ISO 1456) and thereby eliminating any risk of nickel allergy.

For all wooden shells and seat pieces in the chair production only FSC-certified wood is used, which i.a. provides a guarantee that no more trees will be felled than the forest can reproduce. The plastic materials used are produced in accordance with the limits of PAK (polycyclic aromatic hydrocarbons) - a selection is produced wholly or partly from recycled PP.

We also offer several sustainable types of fabric, which are made of up to 100% recycled polyester that is produced from plastic granules from plastic bottles.

In addition, we guarantee a long life for each individual product. Once the used furniture has served its function, it can be returned to Savir Design for recycling. In this way, we save on the earth's resources and ensure that our products remain part of the circular economy.

### WARRANTY

Savir Design provides a 2-year warranty on Gate 11.

The warranty covers breakage of frames and damage caused by defects craftsmanship in normal use. Wear or damage to surfaces, castors and the like is not covered by this warranty.

### TEST

*(The complete test can be downloaded on [www.savirdesign.dk](http://www.savirdesign.dk))*

Gate 11 has been tested for durability at the Danish Technological Institute.
