## GATE CONFERENCE TABLE

### DESIGN & PRODUCTION

Savir Design A/S

### DESCRIPTION

The Gate conference series is built up about a 4-leg pillar, as well as a T-leg shaker frame that gives the table an elegant and stylish look.

The series is available with different top sizes that fit perfectly into all conference, lounge and café areas.

The surface is easy to wipe/sanitize, making the table ideal for environments where many people move around.

### VARIANTS

Gate conference table (with straight or rounded corners)

Gate lounge table (with square or round table top)

Gate café table (with square or round table top)

Gate bar table (with square or round table top)

### ENVIRONMENT

Savir Design is among the leading furniture manufacturers concerning environmental and climate-oriented furniture production. The materials we use in production are carefully selected, and our range of furniture produced from recycled materials is growing rapidly.

All steels in production are RoHS Directive No. 2011/65/EC and REACH Directive No. 2002/95/EC, and aluminum frames are made of up to 100% recycled aluminum. We use environmental chrome coatings complying with the standards for lacquer coating (DS/EN ISO 1456) and thereby eliminating any risk of nickel allergy.

For all wooden shells and seat pieces in the chair production only FSC-certified wood is used, which i.a. provides a guarantee that no more trees will be felled than the forest can reproduce. The plastic materials used are produced in accordance with the limits of PAK (polycyclic aromatic hydrocarbons) - a selection is produced wholly or partly from recycled PP.

We also offer several sustainable types of fabric, which are made of up to 100% recycled polyester that is produced from plastic granules from plastic bottles.

In addition, we guarantee a long life for each individual product. Once the used furniture has served its function, it can be returned to Savir Design for recycling. In this way, we save on the earth's resources and ensure that our products remain part of the circular economy.

### WARRANTY

Savir Design provides a 2-year warranty on Gate conference tables. The warranty covers breakage of frames and damage caused by defects craftsmanship in normal use. Wear or damage surfaces and the like is not covered by this warranty.

### TEST

*(The complete test can be downloaded on [www.savirdesign.dk](http://www.savirdesign.dk))*

Gate conference table has been tested for durability at the Danish Technological Institute.

**Test Report**

Model: Gate Conference Table

Type	Table
Length	176 cm
Width	80 cm
Height	76 cm
Weight	44 kg
Materials	aluminum, fabric, steel frame

Usage: The test material was sampled by the client and received at the Danish Technological Institute, Model 2016.

EN 15777:2016 Furniture - Strength, durability and safety - Requirements for non-domestic tables.

Test level 2: General use: General hotel, cafe, restaurant, public hall, bus, bars, meeting rooms.

Period: The testing was carried out from 19-04-2016 to 20-04-2016.

Result: Model Gate Conference Table fulfills the requirements in EN 15777:2016. Individual results appear from Appendix 1.

Storage: The test material will be destroyed after 1 month unless otherwise agreed.

Notes: The test has been performed according to the standard conditions, which is a warranty of the guidelines, but does not guarantee the Danish Technological Institute. The company is not liable for the test results. The test results may vary according to the necessary technical requirements.
