DESIGN & PRODUCTION

Savir Design A/S

DESCRIPTION

The STUDENT chair for classrooms and educational environments.

The STUDENT chair comes as standard with seat/back in 100% PP. Seat upholstery is available in fabric group 0-4. The frame consists of recycled steel manufactured in accordance with RoHS Directive 2011/65/EC and REACH Directive 2002/95/EC.

 All components of the product can be disassembled and replaced or source sorted and recycled to reduce the consumption of raw materials in production and thus contribute to the sustainable management of the earth's resources. Savir Design receives all used Savir products for recycling at the end of its life cycle to promote the circular economy and thus reduce the overall environmental impact of production and consumption.

 STUDENT 9400 with black shell and black footbase is granted with the EU Ecolabel.

ENVIRONMENT

Savir Design is among the leading furniture manufacturers concerning environmental and climate-oriented furniture production. The materials we use in production are carefully selected, and our range of furniture produced from recycled materials is growing rapidly.

All steels in production are RoHS Directive No. 2011/65/EC and REACH Directive No. 2002/95/EC, and aluminum frames are made of up to 100% recycled aluminum. We use environmental chrome coatings complying with the standards for lacquer coating (DS/EN ISO 1456) and thereby eliminating any risk of nickel allergy.

For all wooden shells and seat pieces in the chair production only FSC-certified wood is used, which i.a. provides a guarantee that no more trees will be felled than the forest can reproduce. The plastic materials used are produced in accordance with the limits of PAK (polycyclic aromatic hydrocarbons) - a selection is produced wholly or partly from recycled PP.

We also offer several sustainable types of fabric, which are made of up to 100% recycled polyester that is produced from plastic granules from plastic bottles.

In addition, we guarantee a long life for each individual product. Once the used furniture has served its function, it can be returned to Savir Design for recycling. In this way, we save on the earth's resources and ensure that our products remain part of the circular economy.

WARRANTY

Savir Design provides a 5-year warranty on STUDENT.

The warranty covers damage to the frame and damage caused by inadequate workmanship in normal use. Wear or damage to covers, surfaces and the like is not covered by this warranty.

TEST

(The complete test can be downloaded on www.savirdesign.dk)

STUDENT has been tested for durability at the Danish Technological Institute.

Test Report

Report No.: 75230-1

Assignor: Savir Design A/S
Ekehamnsvej 12
DK-7100 Vejle

Subject: Model: Gate Student 4 Legs
Type: Chair
Length: 510 mm | Width: 440 mm | Height: 840 mm
Weight: 8 kg
Material: Plastic shell, Ø16 mm metal tubes

Method: EN 1729-1:2015 Furniture - Chairs and tables for educational institutions - Part 1: Functional dimensions. Measured according to table A.1.
EN 1729-2:2012+A1:2015 Furniture - Chairs and tables for educational institutions - Part 2: Safety requirements and test methods. Loading according to EN 1729-2:2012+A1:2015 highest level.

Period: The testing was carried out from 29-03-2017 to 26-04-2017.

Result: Model Gate Student 4 legs fulfills the requirements in EN 1729-1:2015, Table A.1 and the requirements in EN 1729-2:2015.

Notes: Individual results appear from Appendices 1 and 2.

Storage: The test material will be destroyed after 1 month, unless otherwise agreed.

Terms: The accredited test was carried out according to DANAK's general conditions and according to the Danish Terms and Conditions regarding Commissioned tests ordered by the customer. The test report shall only be used for the purposes for which it was issued. The test report shall not be used for other purposes than those for which it was issued. The test report may only be extracted, if the customer has approved the extract.
